GOVDATAHOSTING

Fully-Managed Government Cloud Solutions

SIMPLE ▪ SWIFT ▪ COMPLIANT

With GovDataHosting on your side, complicated concepts are a thing of the past. GovDataHosting is a fully-managed, FISMA-compliant and FedRAMP-certified cloud hosting provider that serves only Federal, state, and local government agencies. Our tools and processes eliminate compliance requirement confusion, while placing the Assessment & Authorization cycle on the fast track.

COMPLIANCE OPTIONS

FISMA | FedRAMP | NIST RMF | DoD RMF

COMPLETE SUPPORT, PEACE OF MIND

- **FISMA Private/Community Cloud Solutions –** Fully-managed, fixed- and consumption-based price options and 24/7 mission critical support.

- **Beyond Compliance™ –** Managed security compliance services allow clients to focus on hosted applications, while GovDataHosting maintains all required compliance activity.

- **Disaster Recovery –** A customized, cost-effective approach to keeping cloud information systems and critical data protected in the event of unexpected interruptions.

- **Application Support –** Managed services for custom applications, database, and middleware and software support options for Microsoft, Oracle, Red Hat, Apache, and Drupal.
