

DoD AUTHORIZED

DATA SECURE

GovDataHosting is YOUR preferred source for DoD application cloud migration, consolidation, and modernization services.

GovDataHosting, through its parent company IT-CNP, Inc., is an awardee of the Army Cloud Computing Enterprise Transformation (ACCENT) program, now extending to the entire Department of Defense.

GovDataHosting was chosen by DoD due to its proven capabilities and extensive record of accomplishments in providing FedRAMP/DoD certified cloud hosting, experience in application migration to the cloud, and all-inclusive DoD cloud security compliance services.

Our ACCENT-driven solutions include:

- Consolidation of DoD applications and data to eliminate redundancy
- Professionally managed migration to a modernized and scalable cloud platform to reduce risk and increase success
- Results driven task order planning and post-award cloud transition support services
- Total application lifecycle management support to reduce cost and complexity
- Turnkey technical and DoD RMF/SRG cloud security compliance assistance to ensure timely project deliverables

Our projects are always on time, within budget, on target, and now available through the DoD ACCENT contract vehicle.
